

PRESS RELEASE

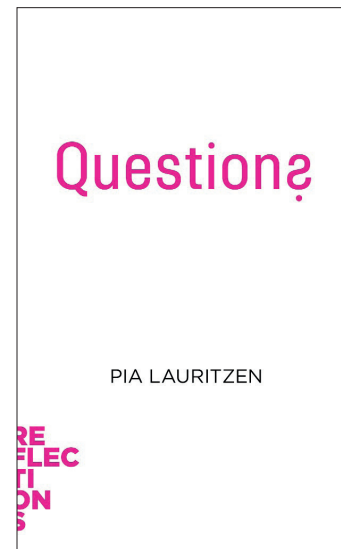

Questions

In *Questions* Pia Lauritzen presents the philosophy of questions. On the basis of her latest research, she concludes that we will never fully understand people from other cultures. Why not? Because each culture asks questions differently. And because the way we understand and use questions in a culture fundamentally determines how we act and think.

Questions is part of a highly acclaimed and successful book series from Aarhus University Press. In only 60 easy to understand pages, each book presents the best and most thought provoking writings by researchers from Aarhus University in Denmark. No footnotes, no references and no academic nonsense. Only knowledge.

Table of contents for *Questions*

Calling Questions into Question?
The First Question
The History of the Question
Questions and Being Human
The Structure of the Question
Questions and Language

QUESTIONS
