

Contents

Chapter 1

Introduction.....	11
Project focus.....	11
Research objectives.....	15
Outline and chapter summary.....	15
Temporal and spatial framework.....	17

Chapter 2

The Mesolithic in southern Scandinavia.....	19
Introduction.....	19
The environmental setting.....	19
The Mesolithic record of southern Scandinavia.....	20

Chapter 3

Theoretical framework.....	29
Introduction.....	29
Theoretical positions in Mesolithic research.....	29
Central theoretical concepts.....	30
Main theoretical framework.....	34

Chapter 4

Determining coastline displacement in southern Scandinavia 8000-4000 BC.....	37
Introduction.....	37
Processes involved in shoreline displacement.....	38
Sea-level studies in southern Scandinavia.....	40
Do we need new sea-level reconstructions?.....	42
Development of new coastline models.....	46
The potential of SLIPs for determining past sea levels.....	49
Measurements of Glacio-Isostatic Adjustment (GIA).....	54
Presentation and validation of the new coastline models.....	66
Summary.....	77

Chapter 5

A critical assessment of the perceived importance of marine resources in the Early Mesolithic of southern Scandinavia.....	79
Introduction.....	79
The perception of Mesolithic cultures.....	80
Sedentism and the role of marine resources.....	80
Coastal adaptations in southern Scandinavia.....	81
Available marine resources.....	84
Sea-level change and sedentism.....	86
Definition of coastally-adapted hunter-gatherers.....	87
Site positions.....	88
Isotopic evidence and spatial variations in diet.....	90
Exploitation of marine animal resources.....	95
Inland fishing.....	99
Stationary fishing equipment.....	102
Exploitation of marine shellfish.....	106
Summary.....	108

Chapter 6

A search for coastally-situated sites in Vendsyssel and the Bay of Aarhus.....	111
Introduction.....	111
Elevated Maglemose sites in Denmark?.....	112
Maglemose sites in Vendsyssel.....	117
Coastal settlement positions in Vendsyssel.....	120
Site position: catchment and function.....	122
Early Mesolithic versus Late Mesolithic site positions.....	124
Coastal sites in the Bay of Aarhus.....	125
Follow-up excavation at position 2014-4.....	129
Discussion and research potential.....	131
Lessons learned from the Bay of Aarhus in a broader perspective.....	132
Summary.....	134

Chapter 7

The inundation of southern Scandinavia: Human responses to, and perceptions of, sea-level rise.....	135
Introduction.....	135
Site abandonment and causality.....	136
Flood-risk mapping.....	136
Sea-level impact on primary animal prey.....	140
Long-term changes in carrying capacity.....	143
Territorial impact.....	147
Adaptations to sea-level change.....	149
Abrupt sea-level change and its potential impact.....	153
Physical and social exposure to sea-level change.....	159
Experiencing sea-level change.....	160
Summary.....	162

Chapter 8

Discussion.....	163
Introduction.....	163
Modelling issues.....	163
Marine adaptation.....	166
Impacts and responses.....	175
Concluding remarks	177
Appendix 1	182
Appendix 2	186
Appendix 3.....	188
References.....	193
